ORD 2456-65

9 September 1965

MEMORANDUM FOR: Executive Officer, DD/S&T

SUBJECT: Proposed ORD R&D Reports

1. Your comments concerning our proposed publication of research progress reports are appreciated. The sample copy we sent to you was an illustration of the "limited edition" that would be distributed to Dr. Wheelon, the DCI, Executive Director, etc. Other recipients would receive an expurgated version of the limited edition with contents dictated by a strict need-to-know principle and distributed on an EYES ONLY/CONTROLLED DISSEMINATION basis.

2. Your remark that the title "Report Resumes" leaves you cold is a most kind remark. Possibly a more appropriate title would be "Reports on Current Research and Development" which would better describe the contents.
